The New Export System - Time Plan

The New Export System

1: Det nya exportsystemet

- Ett nytt system för hantering av exportproceduren tas fram för att anpassa exporthantering till den nya EU-lagstiftningen.
 - innebär en digital hantering av export och utförelse.
 - ersätter TDS export och Exportkontrollsystemet.
 - omfattar även centraliserad klarering för export.
 - kommer att erbjudas S2S (system till system) och M2S (människa till system).

2: Det nya exportsystemet produktionssätts

- den [1 Oktober 2024](#) med en införandeperiod fram till den [2 December 2024](#).
- den [11 Feb 2025](#) Övergångsperiodens slut.
- De delar som införs då är:
 - Standardtulldeklaration
 - Förenklad deklaration och kompletterande deklaration Export.
 - Centraliserad klarering (CCE).
- När det gäller registrering i deklarantens bokföring, anmälan om återexport samt summarisk utförelseklaration som lämnas separat kommer detta att införas något senare dvs. [under 2025](#).
- Den [30 juni 2025](#) ska alla tillämpa det nya regelverket för registrering i deklarantens bokföring fullt ut.

3: En ny process i tre steg

- Den nya exportprocessen består av uppgiftslämnande i tre steg: exportdeklaration, anmälan av varor till utförelsekontoret och anmälan om varors utförelse.
 - **Steg 1 – Exportdeklaration (1 tester)**
 - Deklaranten upprättar en standardtulldeklaration och skickar tulldeklarationen digitalt till Tullverket i meddelande [IE515](#) för att få varorna frigjorda till tullförfarandet export.
 - **Steg 2 – Anmälan av varor till utförelsekontoret (1 tester)**
 - När varorna ankommer till platsen för utförelse lämnar fraktföraren en anmälan av varor till utförelsetullkontoret i meddelande [IE507](#). I anmälan refereras det till tulldeklarationens MRN-nummer.
 - **Steg 3 – Anmälan om varors utförelse (1 test)**
 - När varorna har lämnat EU:s tullområde ska fraktföraren anmäla till utförelsetullkontoret att varorna har förts ut. Detta sker med meddelande [IE590](#).
